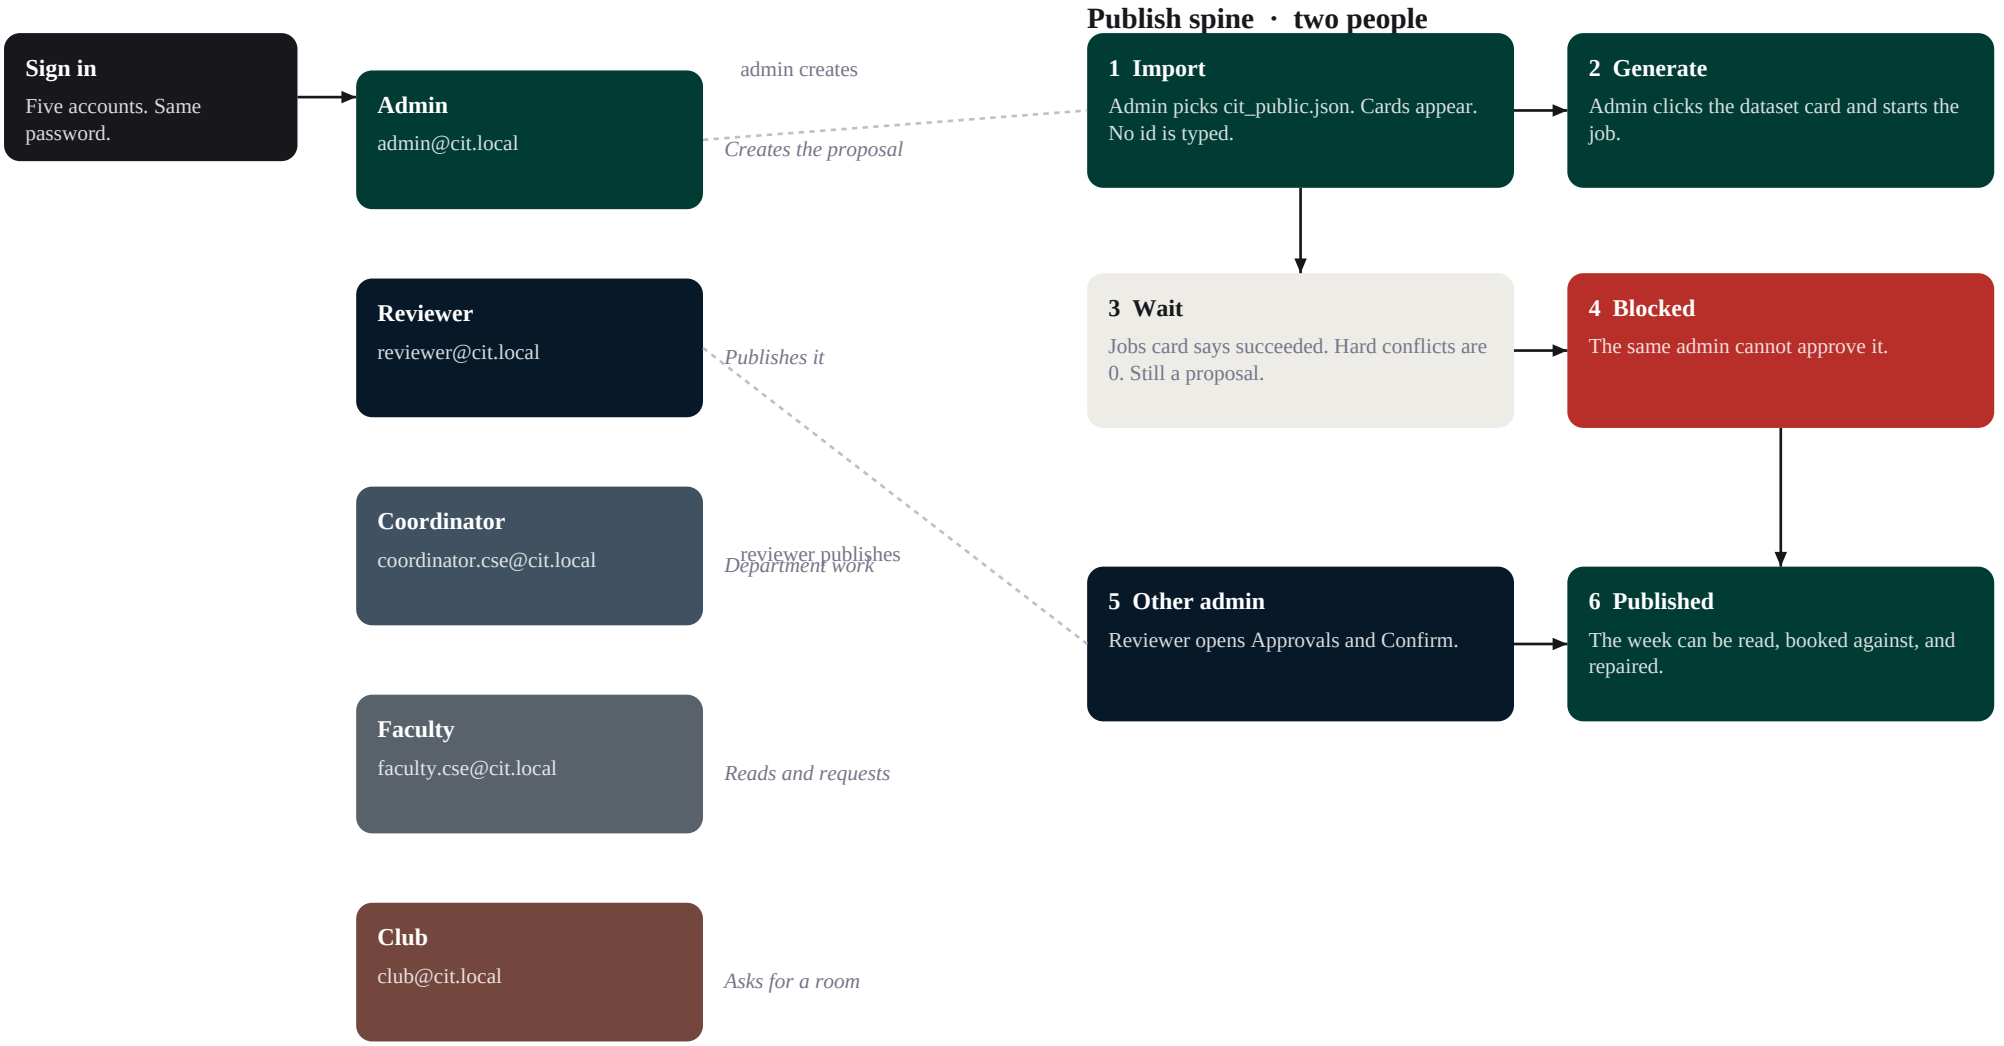
How the week branches by role

One file goes in. Two different admins are required before the week is the campus week.



After the week is published

Three branches leave the approved week. Each one names who may start it and who must finish it.

Who can still only read

Every role opens Timetable and Jobs. Club cannot open Data, Changes, or Events. Faculty cannot open Events or Approvals. Coordinator cannot open Approvals.

Join points · one login is not enough

Week: admin@cit.local generates → reviewer@cit.local approves.

Repair: faculty or coordinator proposes → the admin who did not create it approves.

Venue: club or faculty submits → coordinator, or an admin who did not submit it, reviews. The rules write the reason.
